

**The 11th Meeting of the Investigation Committee on the Accident at
the Fukushima Nuclear Power Stations of Tokyo Electric Power
Company Comments Made at the Press Conference by the
Chairperson of the Committee Dr. Hatamura**

Date and time: From 18:00, Monday, May 28, 2012

Venue: Seminar Room, Mitsubishi Research Institute Building

The 11th meeting of the Investigation Committee on the Accident at Fukushima Nuclear Power Stations of Tokyo Electric Power Company was held today.

In today's meeting, based on previous research, we discussed what type of evaluation and recommendation should be made in the Final Report.

With many debates coming up, it will be a considerable process before the Committee members can come together to reach a common outlook. However, the discussion is progressing steadily.

Almost a year has passed since the Committee held its first meeting on June 7th of last year and we have been conducting the investigation.

As the investigation is approaching the final stage, we would like to make the very best effort toward the Final Report due in July.

That's all for today.
