We held the 12th meeting of the Investigation Committee on the Accident at the Fukushima Nuclear Power Stations of Tokyo Electric Power Company today.

The subject discussed was the draft of the Final Report on the accident.

The Investigation Committee finalized its Interim Report at the 6th meeting held in December 2011. And at the 7th meeting in January 2012 we have determined to present the Final Report in late July.

Since then, we have advanced the investigations and discussions among Committee members and technical advisors for approximately five months. Today, the decision was made that the Final Report will be ready to be presented as scheduled at the meeting on July 23rd.

Specific times will be announced later.

This is all for today. Thank you for your kind attention.
