

Let's Try First !

Use "Regulatory Sandbox" !

Please feel free
to contact us
first !

It is important to **"Try First"** for the social implementation of new technologies and business models.

What is "Regulatory Sandbox" ?

- Just like a child playing freely in a **sandbox**, the Regulatory Sandbox framework promotes social implementation such as smooth commercialization and regulatory reform, by enabling you to **test cutting-edge technologies and business models** within a limited time period and area with a prior consent from participants, and to take advantage of the data and materials obtained from the tests.
- The Cabinet Secretariat serves as a point of contact for applicants to find information and seek prior consultation.

Features

- The framework is open to any industry, including:
 - Mobility (e.g. e-scooters),
 - Fintech (e.g. blockchain and P2P insurance),
 - Healthcare (e.g. telemedicine, OTC vending machines, and mobile pharmacies).

E-scooter

Telemedicine

- You can have a prior consultation with the team to receive advices and hands-on guidance when you plan your project.

Performance

(As of March 2025)

33 plans

152 groups approved !

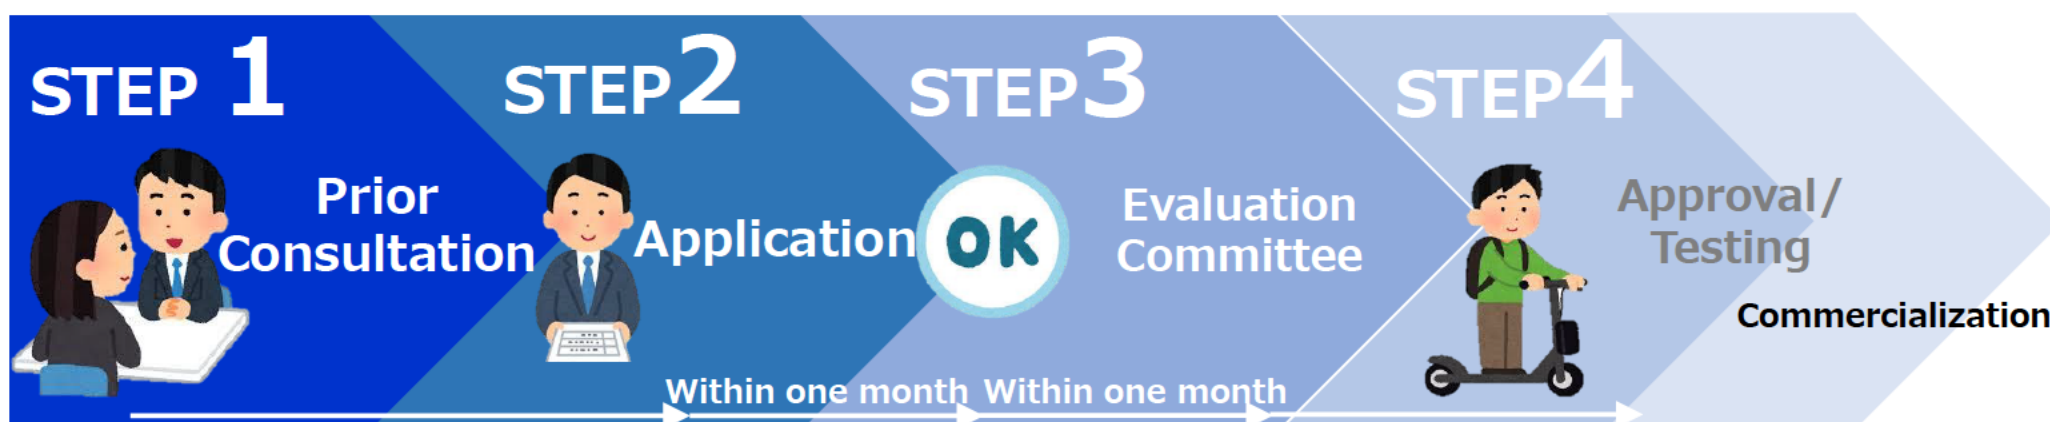

Some cases led to
Regulatory Reforms !

※Road Traffic Act (E-scooter)

※Act on Strengthening Industrial Competitiveness (SMS)

Process under Regulatory Sandbox framework
